this handsomely printed 12 x 12 volume contains 170 pages with over 200 illustrations most of them in color as in the first printing the text written by syd mead is in both english and japanese with design concepts for industry honda learfan fantasy flying cities moon excavations etc and motion pictures such as 2010 bladerunner and tron oblagon concepts of syd mead provides a profound stimulus to the senses originally published in japan in 1985 it soon sold out and has been much sought after by collectors and fans of syd mead for years

this is a brief history in three parts of a new paradigm understanding called the three principles and its dissemination which was uncovered by sydney banks in the 1970s and very gradually and silently crept into the consciousness of perhaps hundreds of thousands of people touching and changing lives worldwide it all began when one man sydney banks in one moment of time had a profound experience of spiritual enlightenment a small circle of people gathered around him on salt spring island british columbia to listen to his wisdom within a few years two mental health professionals became profoundly touched by syd s teachings among them george pransky part i of this book is an extensive interview with dr pransky who began to create an entirely new inside out psychological paradigm it began to spread little by little one person at a time solidly through individual insights and slowly began to infiltrate the fields of mental health prevention corrections business education coaching and many more it began to spread around the world part ii is a historical chronology of what transpired part iii consists of brief write ups of a few of the important historical events that for an extended period of time changed mainstream systems how difficult it must have been to create an entirely new psychology from the formless spiritual nature of which syd banks spoke and for which he himself even struggled to find words furthermore this became a completely new psychology a true paradigm shift to the inside out which flew in the face of the traditional psychology accepted not only by the powers that be but by millions of people around the world who studied it and practice it and

all this from one man s enlightenment experience in one moment of time which gradually rippled out affecting one person at a time who then affected others then others changing lives along the way and it still grows on into unimaginable futures
